THE PASSPORT PROPOSITION.

Last Thursday Mr. R. M. Coussar, chief of immigration for the United States at Nogales, Arizona, received telegraphic instructions from Washington, to continue the issuing of border permits for aliens (Mexicans) to cross the international line. The permits apply as formerly, to all those living within forty miles of the international line in the United States or in Mexico.

In future, according to the late ruling, the permits, or identification cards, do not have to be used by the American consul, and there are no fees. The same rule applies to Americans along the border, and there is great rejoicing among our people and the citizens on the Mexican side of the line who do business in this city.

The new arrangement, as now being carried out, resulted from the splendid work of the Nogales Chamber of Commerce, assisted by other Chambers on the international border.

Much credit is due Mr. J. A. Legarra, chairman of the passport committee, and Secretary J. B. Bristol, for their untiring efforts in properly placing the passport proposition before the powers that be in Washington.

Not only did the gentlemen communicate with other chambers of commerce and secure

their hearty co operation, but Mr. Legarra sent S. O. S. messages to Judge Chas. Blenman of Tucson and Mayor James A. Harrison of this city, Arizona delegates to the Democratic National Convention in San Francisco.

In reply to the telegram sent to San Francisco, Judge Blenman wired Mr. Legarra and other Nogales friends, that he, Mayor Harrison and Congressman Carl Hayden, had held a personal conference with Secretary of State Bainbridge Colby regarding the passport matter, and had received his assurance that he would do everything in his power to aid the border cities.

The people of Nogales and other border towns are under lasting obligations to Congressman Hayden, Secretary of State Colby and the entire Arizona delegation at the Democratic convention.

BORDER PERMITS FREE.

Washington, June 30.—Present rules governing issue of one and ten day border permits are expected to remain in effect when the new passport regulations become effective July 1st. Chief of the division of passport control said today they had agreed to that. It is expected that the secretary of state will approve.

The only new feature of the border permits is that they will not require counter signature by American consuls. There is to be no charge for them. Persons coming from border points in Mexico will be granted cards without charge.

There was talk of giving border permits passport classification, making a new charge of \$10. Against that Congressman Hudspeth protested, as unjust to business men on the border.

It is stated there should be no difficulty in securing a permit to go anywhere within the 40 mile zone; but where a journey goes farther, a passport will be required.

AIRPLANE SAVED THE DAY.

An army airplane from the Twelfth Aero Squadron today saved the day for the American consular service in three border cities by making a special delivery of a rush order for \$2,000 in passport stamps from Nogales and needed by American consular agents at Agua Prieta and Cananea, says Wednesday's Nogales Herald.

American Consul F. J. Dyer received an order in this morning's mail asking that \$2,000 in passport stamps be supplied for use today in the consular agencies at Agua Prieta and Cananea. There was no mail service available for making the delivery. Mr. Dyer called upon Col. Fred L. Walker, commanding officer at Camp Stephen D. Little, and explained his situation, asking for the use of an army airplane to make the delivery of the required stamps.

Col. Walker graciously complied with the request of the American consul, and had Capt. Paul R. Turpin, commanding officer of the Twelfth Aero squadron, put a ship at the disposal of Mr. Dyer.

Bracey Curtis obligingly acted as the messenger to deliver the stamps from the American consulate to the hangars. There Lieutenants Harvey W. Prosser and Leroy M. Wolfe accepted the shipment, entered a ship and hopped off on the flight to Douglas. The delivery was made in brief time. From Douglas the stamps were rushed by a motor car across to Cananea and to Agua Prieta.
